Secret intended to be performed?

MORTOR OR SETMODE.

Secretic Morton, in his reply to M'Seymont's "estret" speeches, made shortners to speeches, made shortners to secret statements concerning the National Banks. It alt
was Western barangain Mr. Seymour has sought to array the people
of the West against the people of the
Esst this showing himself to be a base
emonopour. He told us in Obleage, and
reseased this Instanuabile, that the Westemonopour. He told us in Obleage, and
reseased this Instanuabile, that the Westin discovered the description will left
open to be published up by those who first
applied for it, whereaft the Esstern Shates
got the look share of it. Governor Mortina discovers that assertion by civing the
17th section of the act, which apprides

Generor Morton went on to say that
"the State of Indham get just as much
of that sources; as she was able to take,
and her people were arged by the Occuinelier of the Currency, Mr. McCattock
to take more that they did. The Wostern States have a far larger proportion of
National Banking currency than they
had of State or local banks before the
war."

NEW PUBLICATIONS.

and breinty nine pages, and more then on humbed not fifty good Unfortunents, it really an effectiving catalogue of some of the mo-ement-shift warms displayed in the great Part Expeditor of list year, and not purely work pfillingshire or of art. But the interes-and chaptages of the work are some the les-sifewards, and the price at which, it is not maked it a wary desirable publication to all who are distracted in the programs of mant-facturing as, This of the control of the control of the Notation of the control of the con-trol of the control of the control of the less of the control of the control of the less of the control of the control of the less of the control of the control of the less of the control of the control of the less of the control of the control of the less of the control of the control of the con-trol of the control of the control of the con-trol of the control of the control of the con-trol of the control of the control of the con-trol of the control of the control of the con-trol of the control of the control of the con-trol of the control of the control of the con-trol of the control of the control of the con-trol of the control of the control of the con-trol of the con-trol

The report of the Comp'roller of the Currendy submitted to Congress November 4, 1967, shows that at that date the estate of Indiana had seventy National ilanas, with a capital amounting to \$412,-867, 90, and circulating notes to the extent of \$11,045,490; and their loans were \$4,822,0358. In March, 1961, the entire bank capital in Indiana was \$4,835,495. 20°; their loans were \$6,646,535, 85 that under the National Banking system Indiana has \$8,418,575 of an increased loans has \$8,418,575 of an increased banking explicit, \$6,076,500 of increased banking teats. So that under the present system their banking explicit in Indiana has not even the banking explicit in Indiana has not credit on more than doubted.

It is yeer evident that Indiana has not toot any bank' note dereculation by the rebettington of the State loss the National traft; W. a. furnament d. C. Barber hirador S. C.
